- › Process-oriented, audited/certified service according to ISO 9001-2008

Speed

- › One-stop shopping
- › Engraved print mats ready for delivery on regular working days within 24 hours from customer authorization

Expertise

- › Consultation, support, and know-how from A to Z
- › Assistance at any step of your print mat production process
- › Back-up services for artwork and print mat production

We offer

Idea & Design

Team up with our specialists to select the best graphic elements, code, font type and size, and color for your product presentation.

Artwork & Layout

We help optimize your layout, artwork and variable data objectives.

Digital Templates

We offer digital template creation and template alteration services tailored to your needs.

Print Mat Engraving

Our experts work with the best materials and produce the most precise, detailed and reliable results.

- › Production of print mats available in three locations:
 - › **Switzerland:** full production and support services
 - › **UK:** print mat engraving
- › Pre-shipment print-testing on demand
- › Back-up print mat production for customers with a Hapa Print Mat Laser Engraver – boost your production capacity

Training

We share our expertise

- › Layout and artwork
- › Optimizing use of Place-It software

Delivery

Customized to your needs

- › Standard, back-up or emergency print mat creation
- › Print mat delivery tailored to QA regulations

«The Place-It training and technical support at Hapa was excellent»

Maurício César Ando, Material Planning and Warehouse Coordinator, Instituto Butantan, Brazil
